NVL Digital Inclusion

- ✓ Contributes to the implementation of lifelong learning strategies in the Nordic region and the **development of adults' digital competences**.
- ✓ Working with creating **better opportunities for Nordic citizens** regarding:
 - use of public digital services.
 - participation in lifelong learning.
 - participation in working life.

Hard to reach learners

- ✓ 5 Recommendations
- ✓ Based on research
- ✓ Multiple recipients

5 Policy recommendations for digital inclusion

Nordic Network for Adult Learning (NVL) presents five recommendations that support the development of adults' digital competencies.

1 Acknowledging that digitalization is everywhere

Digital skills in general are necessary for being an active citizen in society. It is not about having specific digital challenges, it is about being challenged by a digitized society.

NVL recommends policy professionals to:

- Re-direct attention from the citizens as "the problem" to citizens as "the solution"

Toolkit

- ✓ Online tools for frontline workers
- ✓ Concrete impact
- ✓ Complements existing tools

TIDSPUNKT

Det rette tidspunkt for de rette tilbud

Denne akse har på fokus at afstemme det rette tidspunkt med de rigtige tilbud om digital støtte eller læring. Det er vigtigt at være opmærksom på, hvordan situation og behov kan ændre sig over tid.

Grundlæggende færdigheder

Digitaliseringen skaber et behov for at opnå grundlæggende færdigheder, som giver adgang til nye teknologier.

Det kan være grundlæggende færdighedskurser i at tænde og slukke enheden og lære den at kende.

Grundlæggende Særlige Her-og-nu Erfarings Andet

KONTEKST

Network

- ✓ Exchange of knowledge, ideas and experiences
- ✓ Connecting different level actors
- ✓ Creating a shared vision and action plan

Workshops

- ✓ Involving stakeholders and decision makers in active dialogue on a national and a Nordic level
- ✓ Example of policy meeting practice
- ✓ Common as well as individual focus areas

📅 28/09/2022 - 28/09/2022 ⌚ 10:00 📍 Fysisk, Helsinki, Finland 🇫🇮 Finsk

Kestävä osaaminen ja digitalisaatio

Tule kuuntelemaan miten voimme edistää digitalisaatio kansalaisten ehdoilla.

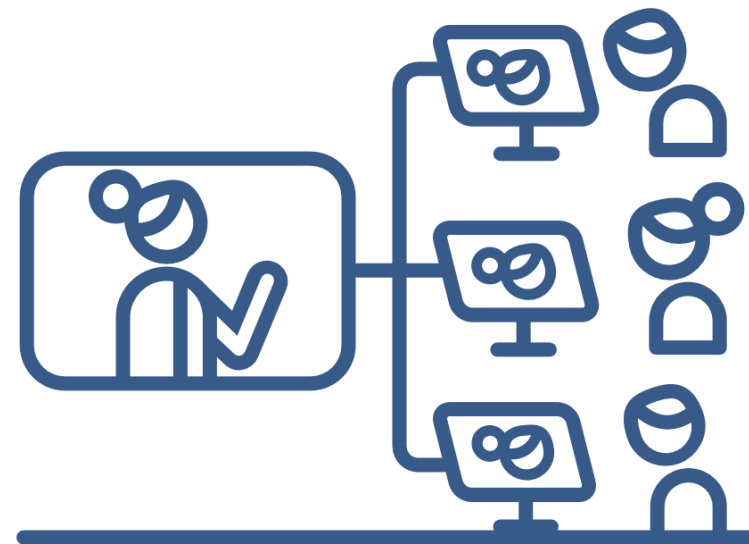

Kestävä osaaminen ja digitalisaatio

Added value through synergies

- ✓ NVL-Digital has the perspective of lifelong learning and competence development.
- ✓ The network has been discussing need for and possibilities to develop quality criteria and quality certification for digital inclusion that could be applied with e.g. education providers, service providers, workplaces.
- ✓ NVL has tested Design thinking method and co-creation during several projects on (digital) inclusion.
