A gap between what is required and what currently exists

Lonely fighters – no networks

Valuable projects that are poorly attended and not shared

Duplication of work despite a lack of resources

Lack of know-how

Digitalization

Quality

Further education (German)

Further education (French)

Quality paper

Asking for opinions (individual conversations)

Integrating, if possible, individual opinions

Showing the stakeholders how we integrated their opinions

Finding common ground

Digitalization and education

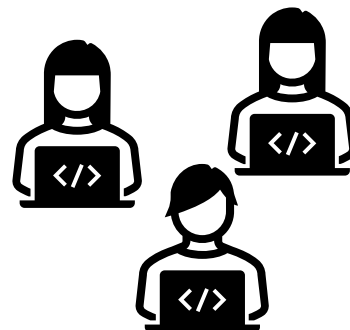

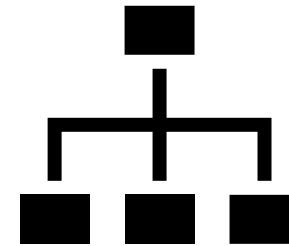

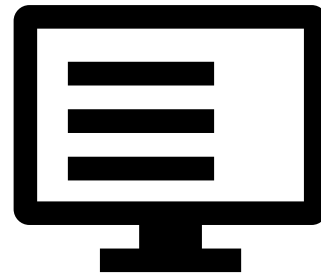

Asking what is required (survey)

Distributing information

Hosting a platform

Forming an ICT working group

We need to support and value their contribution and benefit from their experience
